

+ Clearly focused on what matters

Simplify your workflow with an
integrated fluid management system

Smith+Nephew

DOUBLEFLO[◇]
Inflow/Outflow Pump

Distributed by **Smith+Nephew**

Simple, effective, connected

The DOUBLEFLO[®] Inflow/Outflow Pump is designed to be highly responsive in diverse clinical situations, enabling the device to respond to the surgeon's needs.^{1,2} Developed with **simplicity**, **effectiveness** and **connectivity** in mind, surgeons and staff are able to better focus on the procedure at hand.

+ Simple

The DOUBLEFLO Inflow/Outflow Pump is designed to simplify set-up and operation as well as minimize adjustments and errors before and during the procedure, so busy surgeons and staff can tend to the patient, not the equipment.

Easy to load tube sets to simplify set up

Intuitive user interface to simplify set up + operation, and minimize adjustments and errors before and during the procedure

+ Effective

The DOUBLEFLO Pump is designed to respond to the surgeon's needs in diverse clinical situations, providing consistent debris removal for clear visualization as well as an efficient flow to conserve saline and minimize set-up complications.

Offered with:

Remote Control to change settings conveniently during the procedure

Day tube set to minimize waste*

*By extending saline use and tubing beyond a single procedure

LINK to connect to the INTELLIO[®] Connected Tower

Does not require:

- Calibration step prior to use
- Fill chamber on inflow tubing
- Pinch points
- A cover

+ Connected

The DOUBLEFLO[®] Pump is designed to perform with the INTELLIO[®] Connected Tower, which provides a surgeon and staff the convenience of viewing critical settings via the onscreen display and one-touch set-up via the app.

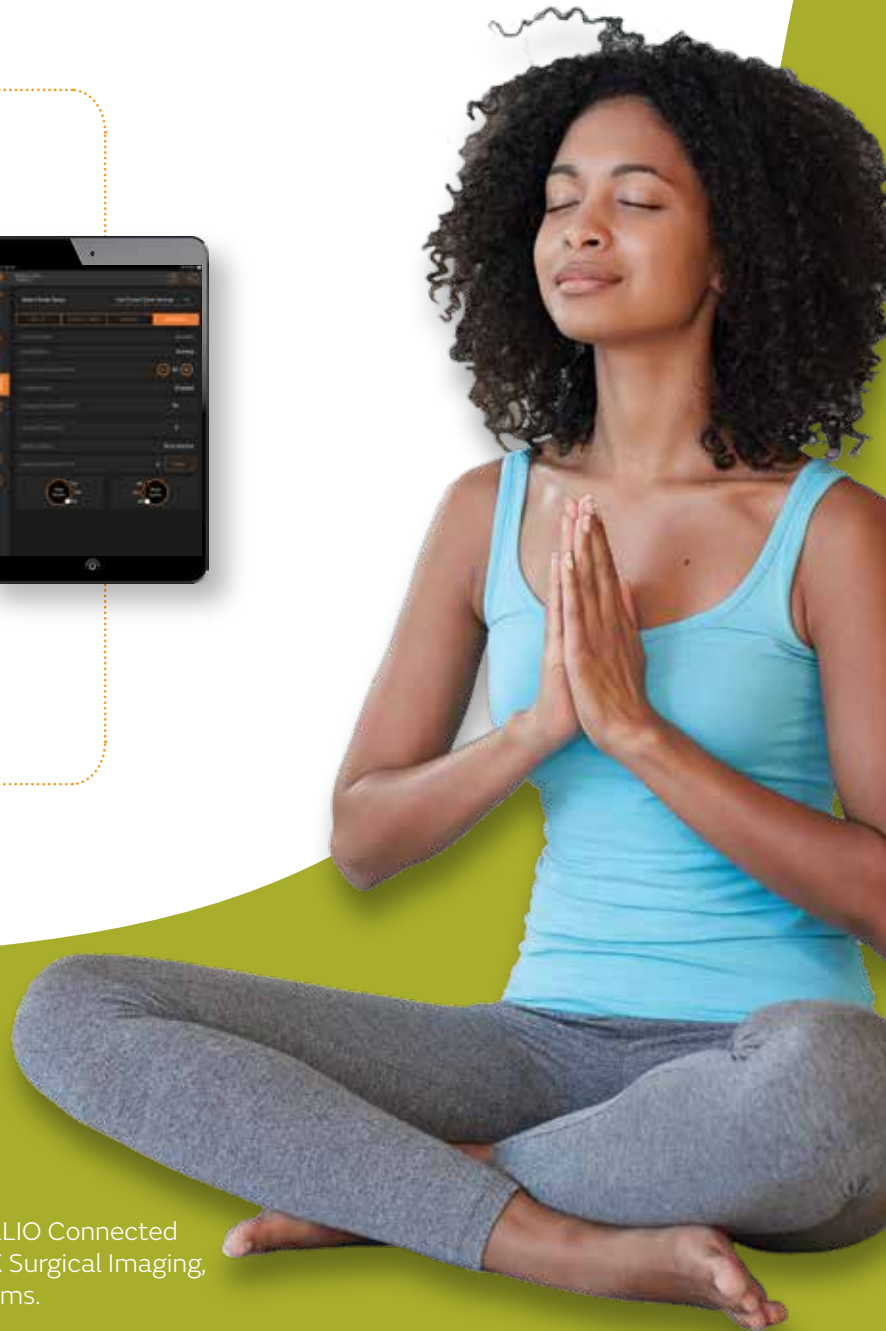

Simple + centralized control

The LENS Connected Tower App is integral to achieving efficiency in operating your DOUBLEFLO Inflow/Outflow Pump by providing you with the ability to control fluid management settings wirelessly.

The DOUBLEFLO Inflow/Outflow Pump, part of the INTELLIO Connected Tower group of products, works seamlessly with LENS 4K Surgical Imaging, DYONICS[®] Resection, and WEREWOLF COBLATION systems.
